

# SecureStart™

**Portable Jump Starter SS103A**  
Breakthrough TMF® Battery Technology

## Never Get Stranded Again!!

### SecureStart™ SS103A

Powered by Bolder Technologies' patented TMF® (Thin Metal Film), the world smallest and powerful sealed lead acid batteries. With a nominal capacity of 1Ah it can produce an instant peak current of up to 900Amp. TMF lead-acid battery is durable, handy, compact and able to jump start most V6 engines in second. Conveniently recharge with car adaptor provided.

SS103A is also applicable to marine, ultra light aircraft and others.

Model	SS103A
Weight	1.38 kg
Nominal Capacity	1 Ah
Nominal Voltage	12 V
CCA	55 A
HCA	70 A
5-sec discharge	300 A
Peak Current	900 A
Internal Resistance	<18 mΩ
Adaptor Charger	15 V, 1A
Full Recharge	4 hours
